 tion of Hispanic/Latino ethnicity will increase.

## 2010 Marin County Data Summary: County of Marin Demographic Profile

## Current Population

## Percent Change in Population by Race from 2000 to 2010

While the overall change in the population from 2000 to 2010 was small (2.1\%), the County experienced changes in certain age/race categories. For example, there were large decreases in the population of Whites and African Americans in the 25-49 year age groups, but increases in the older population in these racial groups. There were substantial increases in Asians and Latinos in most age groups.

## Current Age and Sex Breakdown

Nearly one third of adults in Marin county are over age 55 years. Children and youth (ages 0-19) comprise an estimated $22 \%$ of the population in Marin County compared to 28\% in California.

The number of males and females in the population are similar except in the older ages where there are slightly higher numbers of females. ${ }^{1}$

## 2010 Marin County Data Summary: County of Marin Demographic Profile

## Current Population

| Language Spoken at Home |  |
| :--- | :---: |
| English Only | $76.6 \%$ |
| Spanish | $12.8 \%$ |
| Other Indo-European | $7.0 \%$ |
| Asian \& Pacific Island | $3.3 \%$ |
| Other | $0.4 \%$ |

Among those who speak another language, 53.2\% of Spanish speakers, $19.8 \%$ of Other Indo-European speakers, $42.1 \%$ of Asian language speakers, and $17.0 \%$ of Other language speakers report speaking English "less than English Language Proficiency

## Marital Status

Approximately $2 / 3$ of adults in Marin county are either married or live with partner. ${ }^{2}$

## Education

Approximately 90\% of adults reported completing a high school education, with $55 \%$ of those completing either a four-year college degree or higher. ${ }^{2}$

Highest Education Level Completed

| Less than High School graduate | $11.3 \%$ |
| :--- | :--- |
| High School graduate | $15.9 \%$ |
| Some college/Trade school | $17.9 \%$ |
| Four year College Grad | $29.6 \%$ |
| Post grad/professional degree | $25.4 \%$ |

Income and Poverty

One third of adults reported household incomes greater than \$135,0000 in 2009. 9.1 percent of the Marin Population report living in poverty per Federal Poverty Level (FPL) guidelines in $2010{ }^{5}$. For a family of 3 (the average household size in Marin), the FPL is $\$ 18,310$. When the Self-Sufficiency Standard, which calculates the income needed by working families to meet basic needs, is considered, an annual income of $\$ 82,913$ would be necessary to meet the most basic expenses for a family of three in Marin County. ${ }^{4}$

## 2010 Marin County Data Summary: County of Marin Demographic Profile

## Population Projections

## Population of Marin compared to California

Per DOF projections, the Marin County population will increase slightly over the next twenty years. By 2030, the population will have increased $10 \%$ from 2000 census calculations. This differs significantly from California projections where a $44 \%$ increase in the statewide population is expected in the same time period. ${ }^{1}$

## Race/Ethnicity Breakdown

Historically, Marin County has been less diverse than the rest of California; however, that trend is changing. Nearly 3/4 of the Marin County population is White. Latinos are the next largest group at 19\%. By 2030, it is projected that Latinos will comprise $38 \%$ of the Marin County population, a 100\% increase. The proportion of Asian and Black Marin County residents will remain relatively stable. ${ }^{1}$

## Population Projections

Age Breakdown

Between 2010 and 2030, the county is projected to undergo changes in the age breakdown of the population. The population is projected to become more top and bottom heavy suggesting a greater aging population and greater youth population, with a smaller middle age population. Population increases are projected to occur in all age groups of children. Seniors aged 65-79 will increase through 2030, while the "oldest seniors" (80+) will increase in numbers beginning in 2020. These changes will have implications for the need for services to support the county's youth and senior populations.

Age 20-59

Age 60+
